

ABHAY KUMAR

Software Developer

7562000094

raj634686@gmail.com

<https://www.linkedin.com/in/abhay-kumar-588a22230>

EDUCATION

Bachelor of Engineering
Excel Engineering College
2021-2025

Intermediate
T.P Verma College
2019-2021

Secondary Education
H.S DAV Public School
2019

SKILLS

- C++
- C
- Data Structures
- PYTHON
- HTML
- JAVASCRIPT
- CSS

LANGUAGE

- English
- HINDI

PROFILE

Enthusiastic student passionate about software development, with a focus on mastering data structures and algorithms. Proficient in C, C++, and Python, I thrive on creating innovative solutions to complex problems. Driven by curiosity and a desire to make a positive impact, I'm dedicated to staying updated with industry trends and practices, ready to contribute to transformative projects.

PROJECT

SNAKE GAME USING PYTHON

- Developed a classic Snake game using Python, demonstrating proficiency in game development and object-oriented programming principles.
- Implemented features such as snake movement, collision detection, and score tracking to create an engaging and interactive user experience.

Crop Disease Detection

- Developed a Crop Disease Detection system utilizing Convolutional Neural Networks (CNNs), showcasing expertise in machine learning and computer vision.
- This project underscores my proficiency in leveraging advanced technologies to address real-world challenges in agriculture and underscores my capabilities in machine learning and AI-driven solutions.

CERTIFICATION

Data structure training

- Completed an 8-week online training program in data structures through Internshala, acquiring comprehensive knowledge and practical skills in this fundamental area of computer science.

Internship certificate

Schneider Electric

- Successfully completed an internship program in web development, gaining invaluable experience in industry practices and collaborative teamwork within a professional environment
